

## SHEEP BRISKET SHEAR

### Description:

- Lightweight and maneuverable, it can easily cut the breast of the sheep.
- Fast and efficient with two triggers for operator safety.
- The force of the hydraulic cylinder is more than enough to cut the sternum of mutton and calf.

### Technical Data:

- Activation: Hydraulic
- Weight: 14 Kg
- Sash opening: 153 mm
- Length of the cutting blade: 330 mm
- Air Pressure: 6 bar
- Control Trigger (s) - Type: Two Triggers / Pneu
- Power Unit: HP-III-A
  - 3 HP Hydraulic Pump
  - Motor: 3HP
  - Hydraulic pressure: 103 bar
  - Capacity: 10 Gallons
  - Flow: 3.0 GPM
  - Dimensions: 483 x 380 x 585 mm
