

SHEEP HORN CUTTER

Description:

- Fast and powerful; for high volume production plants.
- Cut horns with ease. Double trigger for greater safety.
- Eliminates the physical effort required in the conventional system.
- Stainless steel construction and non-corrosive materials to facilitate sterilization and cleaning.

Technical Data:

- Activation: Hydraulic
- Weight: 8 Kg
- Sash opening: 84 mm
- Blade length: 127 mm
- Aure pressure: 6 bar
- Control Trigger (s) - Type: One or Two Triggers / Pneu
- Power Unit: HP-III-A
 - 3 HP Hydraulic Pump
 - Motor: 3HP
 - Hydraulic pressure: 103 bar
 - Capacity: 10 Gallons
 - Flow: 3.0 GPM
 - Dimensions: 483 x 380 x 585 mm
